NOVEMBER 2021

### EARTHWORKS COMPLETED FOR NEW RESERVOIR AT CARCOAR WATER FILTRATION PLANT

People driving along Fell Timber Rd, Carcoar would have observed lots of earthwork activity this past year occurring behind our Carcoar Water Treatment Plant. These earthworks are the first stage of the construction of a new 12 megalitre (ML) or 12 million litre Clear Water Reservoir.

The new reservoir will supplement our existing 2.1 ML Clear Water Reservoir that was built in 1954 to service Central Tablelands County Council's original Carcoar Water Filtration Plant.

The original Carcoar Water Filtration Plant also built in 1954 was replaced with a new Water Treatment Plant in 2002.

The Carcoar Water Treatment Plant provides drinking water to the extremities of CTW's network townships, including Grenfell in Weddin Shire, Manildra and Eugowra in Cabonne Shire, bulk water to Gooloogong Reservoir in Cowra Shire, Millthorpe in Blayney Shire and townships along the way including Carcoar, Mandurama, Lyndhurst, Canowindra, Cudal and Cargo as well as branches to small rural schemes.

As with most project activities commencing within these past two years, COVID 19 has delayed the delivery of this project by at least 12 months.

Now that COVID restrictions are easing, CTW is planning to have this vital piece of infrastructure completed by the end of this financial year. The new 12ML reservoir will provide significant operational benefits for CTW in continuing to provide a quality water supply – reliably and sustainably.

### Time for Spring Cleaning!

CTW's Level 1 water restrictions allow for the washing down of walls and hard surfaces using a pressure washer when Lake Rowlands is at 90% capacity or above. An exemption is required from CTW when Lake Rowlands is below 90%. Please visit the CTW website at [www.ctw.nsw.gov.au](http://www.ctw.nsw.gov.au) for up-to-date Lake Rowlands levels.

### Did you know about our automatic water filling stations?

Three stations are currently operational in Cabonne Shire, located at Manildra, Canowindra and Eugowra, with a further two (2) stations to be commissioned in Cargo and Cudal. There is also two (2) stations to be commissioned in Weddin Shire, located at Grenfell and Quandialla

All automatic water filling stations have been fully funded by the Federal Government's Drought Communities Program via Cabonne Council and Weddin Shire Council.

**The level of Lake Rowlands was 100% as at 4 November 2021. Please check our website for regular water level updates.**

**Thank you for using water wisely**

### Receive Water notices by email

You can have your water bill emailed to your nominated email address.

The use of our emailed bill delivery service is more efficient and better for the environment.

If you would like your water account emailed, please complete the water notice email form available on our website.

<https://www.ctw.nsw.gov.au/forms/online-forms/>
