ACKNOWLEDGEMENT OF COUNTRY

Central Tablelands Water acknowledges the Traditional Custodians of the lands on which we live and work. We recognise the Wiradjuri people as the Traditional Owners and Custodians of this region and pay our respects to their Elders past, present and emerging.

We acknowledge the deep and continuing connection Aboriginal and Torres Strait Islander peoples have to land, water and community. We recognise that water is a vital and shared resource, and that First Nations peoples have cared for and managed these water systems for thousands of years.

Central Tablelands Water is committed to respecting this ongoing connection and to working in a way that honours the cultural significance of land and water, while supporting strong relationships with Aboriginal communities across our region.

CHAIRPERSON AND GENERAL MANAGER MESSAGE

We are proud to present the Central Tablelands Water (Council) Delivery Program for 2026–2030, our roadmap for shaping a resilient, prosperous, and sustainably water-secure future for our region.

Across the next four years, this program sets out Council's strategic direction and reinforces our commitment to delivering excellence in every aspect of our operations. It reflects our belief that safe, high-quality, reliable drinking water is not just an essential service – it is the foundation of thriving communities, strong industry, environmental stewardship, and long-term regional growth.

Our priorities focus on three pillars: providing a high-quality and reliable water supply; operating as an efficient, sustainable, customer-focused organisation; and demonstrating leadership and collaboration across the region. These aspirations are supported by key result areas including service excellence, responsible governance, best-practice management, outstanding customer service, strong financial stewardship, proactive risk management, and investment in our people and partnerships.

Council remains firmly committed to protecting and enhancing our precious water sources, including Lake Rowlands and key bore sites across our network. These resources are central to regional prosperity, and our ongoing investment ensures they remain secure and sustainable for generations to come. We will continue to advocate for the augmentation of Lake Rowlands and explore opportunities for regional linkages that strengthen water security in an evolving climate.

With the region expanding and technology advancing rapidly, Council is significantly scaling up our commitment to renewing and upgrading critical water infrastructure. Guided by contemporary asset data and emerging innovations, we will invest in water treatment plants, pump stations, pipelines, telemetry, bores, and reservoirs. These improvements will not only enhance system performance and capacity, they will reinforce the resilience, reliability, and redundancy that underpin Council's high standard of service.

A sustainable financial future is essential to our ability to maintain and elevate service levels. Our focus on prudent, forward-looking financial management ensures we can continue to invest wisely in infrastructure, innovation, and our workforce. We will also work closely with all levels of government to pursue funding opportunities that unlock further regional benefit.

This Delivery Program commits Council to driving meaningful organisational efficiencies—using data to strengthen decision-making, leveraging new technologies to improve processes, reducing our environmental footprint, and cultivating a skilled, motivated workforce ready to meet the challenges and opportunities of the future.

Above all, Council remains deeply committed to collaboration. By working closely with councillors, staff, constituent councils, customers, stakeholders, government partners, and fellow Local Water Utilities, we will continue to advance shared priorities and help shape a stronger, smarter, more resilient region.

Together, we look forward to delivering a future where our communities continue to grow, our environment thrives, and water remains a source of confidence, opportunity, and wellbeing for all.

MISSION

To supply quality, affordable drinking water to our customers across our region, in collaboration with our constituent councils.

VISION

As a regional leader and provider, to achieve excellence in water supply, now and into the future.

VALUES

Central Tablelands Water values our customers, our workforce, and our regional partners. We provide our water supply valuing sustainability, quality, efficiency, equity, and innovation.

IP&R FRAMEWORK

The preparation of a Delivery Program and Operational Plan (DP/OP) is a requirement under the Office of Local Government (OLG) Integrated Planning & Reporting (IP&R) framework and forms part of the Resourcing Strategy. The DP/OP provides a statement of commitment to the community and translates the community’s strategic goals into clear actions.

It is the primary reference point for all activities undertaken by council during its term of office. It allows council to determine what is achievable over the next 4 years, what the priorities are, and how programs will be scheduled.

The DP allows council to demonstrate how its ‘business-as-usual’ activities help achieve Business Activity Statement (BAS) objectives. It is used to inform decision-making, guide prioritisation of expenditure, and demonstrate how the commitments outlined in the Business Activity Strategic Plan (BASP), Delivery Program (DP) and Operational Plan (OP) will be resourced and funded.

CONSTITUENT COUNCIL PRIORITIES

In identifying its strategic priorities and activities, Council is required to give due regard to the future plans and needs of its constituent councils' communities as it relates to the provision of water supply, and as outlined in their respective Community Strategic Plans.

Constituent Council	Community Strategic Plan Priorities
<p>Blayney Shire Council</p> 	<ul style="list-style-type: none"> • Utility services meet the growing needs of the community <ul style="list-style-type: none"> - The community has access to an appropriate water supply. • Natural ecosystems, including waterways, bushland, and wildlife, are preserved and enhanced <ul style="list-style-type: none"> - The natural environment, including the Belubula River, is well managed and preserved for current and future generations
<p>Cabonne Council</p> 	<ul style="list-style-type: none"> • Cabonne residents have access to secure, quality and reliable water supply. <ul style="list-style-type: none"> - Future-proof our water resources through preparing for droughts, building a sustainable water network and being responsible water users.
<p>Weddin Shire Council</p> 	<ul style="list-style-type: none"> • Water, Sewerage and Urban Drainage is Properly Managed Now and for the Future <ul style="list-style-type: none"> - Strengthen our strategic approach to the management of our water, sewerage, and urban drainage infrastructure services

CENTRAL NSW JOINT ORGANISATION (CNSWJO): STATEMENT OF STRATEGIC REGIONAL PRIORITIES

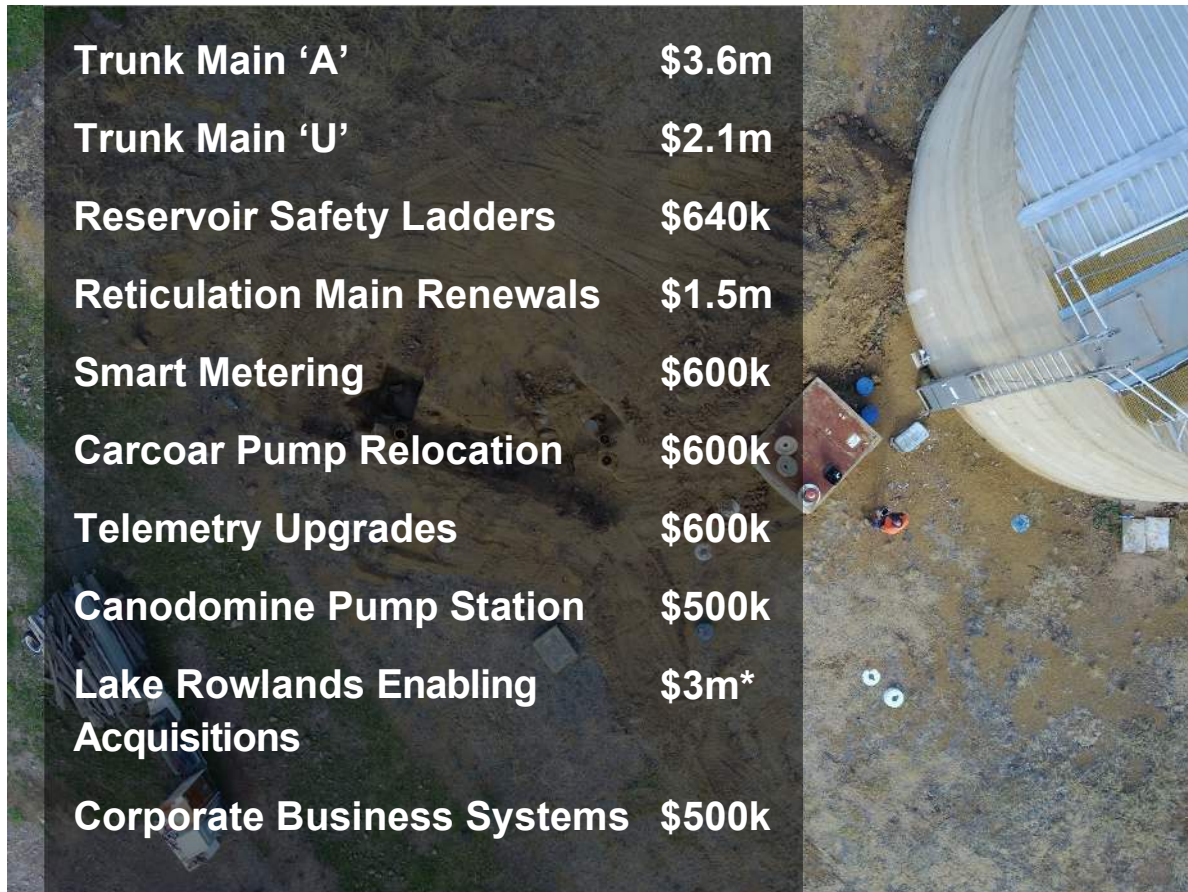

Council, as a county council, is an associate member of the CNSWJO and has referred to relevant regional strategic priorities in the table below that apply to Council's operations or functions.

MAJOR PROJECTS

Over the 4 years of the Delivery Program, Council will invest over \$19m into its capital projects program covering asset renewals and new assets. The following list highlights the major projects that have been included in the Long-Term Financial Plan and the Annual Budget for 2026/27.

Trunk Main 'A'	\$3.6m
Trunk Main 'U'	\$2.1m
Reservoir Safety Ladders	\$640k
Reticulation Main Renewals	\$1.5m
Smart Metering	\$600k
Carcoar Pump Relocation	\$600k
Telemetry Upgrades	\$600k
Canodomine Pump Station	\$500k
Lake Rowlands Enabling Acquisitions	\$3m*
Corporate Business Systems	\$500k

*Over the course of the Delivery Program timeframe the Belubula Water Security Project will complete the Final Business Case and a determination by the NSW State Government is expected. The outcome of this process will significantly impact Council's capital works and asset management in, and beyond, the four-year Delivery Program.

DELIVERY PROGRAM 2027-2030 & OPERATIONAL PLAN 2026/27

COUNCIL'S STRATEGIC PRIORITIES

Council has adopted three strategic priorities each with a set of Key Result Areas.

STRATEGIC PRIORITY 1: Provide High Quality and Reliable Drinking Water Supply

KEY RESULT AREAS	
1.1	Service provision through fit-for-purpose infrastructure
1.2	Ensure compliance with regulation
1.3	Best practice asset management
1.4	Mitigate environmental impacts of service delivery
1.5	Efficient use of water

STRATEGIC PRIORITY 2: An Efficient, Sustainable & Customer Focused Organisation

KEY RESULT AREAS	
2.1	Quality customer service
2.2	Sound and sustainable financial management
2.3	Continuous improvement whilst managing risk
2.4	A capable and effective workforce
2.5	A compliant organisation

STRATEGIC PRIORITY 3: Regional Leadership and Collaboration

KEY RESULT AREAS	
3.1	Regional collaboration and partnerships
3.2	Regional leadership in the water sector
3.3	Regional water security
