

Unconnected Land Availability Charges Review Application

Owners Name:	
Property Address:	
Phone:	Email:

COMPLETE ONE SECTION ONLY

☐ **A. Exemption Request – Alternative Water Supply Requirement**

Where the property owner has established an alternative water supply system and can prove that they were not able to connect to Council's reticulated service network at the time of establishing the alternative water supply system due to either:

- a formal Council decision to not supply water to that parcel of land, or
- Council's water infrastructure was not available at the time of establishing the alternative water supply system.
- Please provide details demonstrating how the above exemption applies to your property and attach documentation to support your application.

Details (include Lot/Section/DP of parcel/s):

OR

☐ **B. Reduction Request – Maximum Applicable Charges**

Where the property owner owns multiple parcels of land the unconnected land availability charges will be capped to two fees where the following three criteria are satisfied:

- the relevant parcels of land are contiguous and under identical ownership, and
- at least one parcel of land within the contiguous parcels of land is already connected to Council's reticulated service network, and
- all parcels of land are included in a single valuation from the Valuer General.

List Parcel Details (Lot/Section/DP):

Account Number of Connected Parcel:

OR

☐ **C. Technical Review of Application**

Customers may request a review of the charges with a written response provided to the applicant.

Office use only
